36	HAL-AD/DEFEX-20/OF	13-Aug-20	Expro Events and Exhibits, New Delhi.	Proposal for amendment in Contract for Appointment of Official Fabricator (OF) for Defexpo-2020 (Amendment no. 2)	-	1453.00	Division awarded the contract for Appointment of Official Fabricator (OF) for Defexpo-2020 to M/s Expro at value Rs. 70.40 cr. Given the magnitude, importance and nature of event, and experience gathered in past from Defexpo-2018 & Aero India, it was expected that there will be variations in qty. during the execution stage and new items may also be added. The event was completed on 09.02.2020 and in course of conducting the event, additional requirement emerged due to regular inputs being received from various stakeholders like MoD, Armed foreces, Security agencies, State Govt. etc. Such requirement were cleared for execution by OIC-OF as per contract terms & conditions. On the basis of bill submitted by vendor, PNC (post event) was organised for non-tendered items and items where additional qty. executed. After four rounds of PNC meetings, mutually agreed project cost has emerged as Rs. 98.80 cr. (including GST). Out of which, Rs. 18.88 cr. has been considered under single tender/nomination basis due to execution of additional qty./ new items. Proposal considered under nomination basis for non-tendered items (Proposal amendment no.1) valuing Rs. 4.35 cr. has already been reported to Board in 4th Qtr. 2019-20. Hence, now Rs. 1453/-	Single Tender	-

73	3054693	07-Aug-20	PARK CONTROLS & COMMUNICATIONS (P) LIMITED	Telemetry system for EFDU Integration	INR	80.43	<p>HAL(MCSRDC) has developed the Engine & Flight Display Unit (EFDU) for Jaguar DARIN III aircraft against CO sanction No. 2693 dtd 15/11/2017. The EFDU will provide the pilot with flight critical information such as Engine speed, Engine temperature, Fuel level indications, airspeed, heading , altitude etc. This being a flight critical LRU, the requirement of telemetry is mandatory for flight trials. The telemetry systems consists of an airborne installation and a ground station. In case of failure of EFDU in aircraft, the duty pilot at telemetry ground station provides guidance to pilot with the support of ground based telemetry station for safe landing.</p> <p>M/s. Park Controls has supplied the Telemetry system (airborne & Ground station) vide PI No. 3053279 dated 10/03/2011 for jaguar DARIN III upgrade. However, as this system has become obsolete, the OEM has proposed for a better & reliable telemetry system which is presently being used at HAL - National Flight Testing Center (NFTC) and Aircraft System Testing Establishment (ASTE) for airborne and ground station. It is proposed to use the same for airborne application also. This ensures compatibility of the proposed airborne telemetry system with existing ground telemetry stations</p>	Single Tender	DPU-DARIN III
